Strategies for Success

YOUR PLAYBOOK FOR CO-TEACHING is a result of a multi-year collaboration between Rick and Stefan. It is based on hundreds of actual co-teaching observations conducted by Rick, with structural and editorial consultation provided by Stefan. Stefan is also creating a German language translation of the tool for use in the European Union.

YOUR PLAYBOOK FOR CO-TEACHING features "PlayCards" that clearly describe powerful strategies taken directly from co-taught inclusion classrooms. It is an easy-to-use guide, that provides co-teaching teams with concrete, pragmatic ways to further develop their co-teaching skills. It is also a useful tool for administrators seeking to support their co-teaching staffs.

YOUR PLAYBOOK FOR CO-TEACHING is modeled after "playbooks" used in sports. Playbooks are closely guarded resources that contain a team's strategies for reacting quickly to changing conditions on the field during the game.
